To the Shareholders

Dear Sir or Madam,

Reference is made to the announcement of the Company dated 30 September 2021 in relation to the signing of the Sale and Purchase Agreements, pursuant to which, subject to the fulfilment of the conditions precedent, the Purchaser has agreed to purchase and the Vendor has agreed to sell (i) 100% of the equity interest in Shuifa Guangyao; (ii) 86% of the equity interest in Xintaishi Zhongmu; and (iii) 68% of the equity interest in Dongying Tianze, at an aggregate consideration of RMB103.18 million (equivalent to approximately HK\$123.82 million). Upon Completions, Shuifa Guangyao will become a wholly-owned subsidiary of the Company, and Xintaishi Zhongmu and Dongying Tianze will become non-wholly owned subsidiaries of the Company. The Acquisitions constitute discloseable and connected transactions of the Company under the Listing Rules for reasons explained below.

The purpose of this circular is to provide you with, among other things, (i) the material terms of and further information in relation to the Acquisitions; (ii) the recommendation and advice of the Independent Board Committee; (iii) a letter of advice from Red Sun Capital to the Independent Board Committee and the Independent Shareholders; and (iv) other information as required under the Listing Rules together with a notice convening the SGM, at which ordinary resolutions will be proposed for the Independent Shareholders to consider, and if thought fit, to approve, among other things, the Acquisitions and the transactions contemplated under the Sale and Purchase Agreements.

On 30 September 2021, the Purchaser, a wholly-owned subsidiary of the Company, entered into the Sale and Purchase Agreements with the Vendor and the respective Target Companies, pursuant to which, subject to the fulfilment of the conditions precedent, the Purchaser has agreed to purchase and the Vendor has agreed to sell (i) 100% of the equity interest in Shuifa Guangyao; (ii) 86% of the equity interest in Xintaishi Zhongmu; and (iii) 68% of the equity interest in Dongying Tianze, at an aggregate consideration of RMB103.18 million (equivalent to approximately HK\$123.82 million).

The principal terms of each of the Sale and Purchase Agreements are set out as follows:

30 September 2021

- (1) Hunan Singyes Green Energy Co., Ltd.* (湖南興業綠色能源股份有限公司), a wholly-owned subsidiary of the Company, as the Purchaser;
- (2) Shandong Shuifa Clean Energy Technology Co., Ltd.* (山東水發清潔能源科技有限公司), as the Vendor; and
- (3) Heze Kaifaqu Shuifa Guangyao New Energy Co., Ltd.* (荷澤開發區水發光耀新能源有限公司), as the target company.

As at the date of the Shuifa Guangyao Sale and Purchase Agreement, the Vendor is a directly wholly owned subsidiary of Shuifa Energy, which is a controlling shareholder (and therefore a connected person) of the Company indirectly holding approximately 66.92% of the issued share capital of the Company. Shuifa Guangyao, being owned as to 100% by the Vendor and therefore an associate of the Vendor, is also a connected person of the Company.

The subject matter of the sale and purchase under the Shuifa Guangyao Sale and Purchase Agreement is 100% equity interest in Shuifa Guangyao held by the Vendor.

The consideration payable by the Purchaser to the Vendor for the Shuifa Guangyao Acquisition is RMB3.16 million (equivalent to approximately HK\$3.79 million), which shall be payable by the Purchaser to the Vendor by cash or by wire transfer in two instalments as follows:

		<i>(RMB)</i>
1	1,896,000	Within five business days after all the Shuifa Guangyao CPs are being satisfied.
2	1,264,000	

The consideration for the Shuifa Guangyao Acquisition was determined after arm's length negotiation between the Purchaser and the Vendor by reference to, among others, the historical financial performance of Shuifa Guangyao and the assets and liabilities of Shuifa Guangyao. In addition, the Purchaser also took into account the valuation of the 100% equity interest in Shuifa Guangyao at approximately RMB9,000,000 by using the market-based approach as at 30 April 2021 by the Valuer in the Valuation Report.

Taking into account that (i) the consideration payable for the Shuifa Guangyao Acquisition is lower than the valuation of the 100% equity interest in Shuifa Guangyao; (ii) the potential value of the power generation project solely invested and owned by Shuifa Guangyao as disclosed under the section headed "Information on Shuifa Guangyao" below; and (iii) the reasons for and benefits of the Acquisitions as stated under the section headed "Information on the Purchaser and the reasons for and benefits of the Acquisitions" below, the Directors are of the view that the consideration payable for the Shuifa Guangyao Acquisition is fair and reasonable and in the interests of the Company and its Shareholders as a whole.

Although the consideration payable for the Shuifa Guangyao Acquisition is higher than the subscribed registered capital paid by the Vendor, taking into account that (i) at the time when the Vendor invested in Shuifa Guangyao, the 2MW distributed photovoltaic power station was not yet constructed (completed and connected to the grid on 30 November 2019); (ii) the Vendor has duly completed certain registration procedures of the 2MW distributed photovoltaic power station which lowered the risks of such project; (iii) after the investment made by the Vendor, the net asset value of Shuifa Guangyao has increased and Shuifa Guangyao has not paid any dividends to the Vendor; and (iv) with the implementation of the Chinese government policies such as "carbon peaking" and "carbon neutrality", and due to the scarcity of land and grid-connected resources, the MW distributed photovoltaic power station is one of scarce project resources and is marketed at a good premium, the Directors are of the view that the consideration payable for the Shuifa Guangyao Acquisition, at a premium to the subscribed registered capital paid by the Vendor, is fair and reasonable and in the interests of the Company and its Shareholders as a whole.

The Purchaser shall pay the first instalment of the consideration to the Vendor within five business days after all of the following conditions precedent ("") are being satisfied:

- (a) the board of directors and shareholders of the Purchaser having approved the Shuifa Guangyao Acquisition;
- (b) the Independent Shareholders having approved the transactions contemplated under the Shuifa Guangyao Sale and Purchase Agreement in accordance with the Listing Rules;

-
-
- (c) the Vendor having completed the internal approval procedures of state-owned enterprise of the PRC in respect of the Shuifa Guangyao Acquisition, including but not limited to obtaining internal approvals from the Vendor Group and approvals from the State-owned Assets Supervision and Administration Commission of the State Council (if necessary);
 - (d) the Vendor not having materially breached any of the warranties given by it under the Shuifa Guangyao Sale and Purchase Agreement;
 - (e) Jiangsu Financial having agreed to cooperate with the Vendor to discharge the pledge on 100% equity interest in Shuifa Guangyao; and
 - (f) there has not been any material adverse impact on Shuifa Guangyao since 30 April 2021.

No party shall have the right to waive any of the above conditions. As at the Latest Practicable Date, condition (c) above has been satisfied.

Completion of Shuifa Guangyao Acquisition shall take place on the date of completion of all of the following (the “ ”):

- (a) the submission of the relevant documents and the completion of registration with the local Administration for Industry and Commerce in respect of changes in relation to the Shuifa Guangyao Acquisition. Within three business days after the completion of registration, Shuifa Guangyao shall provide the Purchaser with the relevant supporting documents (including the new articles of association filed with the local Administration for Industry and Commerce); and
- (b) the transfer of all financial books (electronic and manual), account information, bank account information, cash, deposits, financial seals, bills, vouchers and information necessary for the daily operation and management of Shuifa Guangyao, various documents and Shuifa Guangyao’s assets including but not limited to fixed assets, land certificates, real estate certificates, personnel files, various certificates (business licenses, tax registration certificates, organization code certificates and other approval certificates, permit certificates, qualification certificates, approvals and proofs, etc.), agreements, contracts, company seals, seals of legal representatives, business records, vehicle licenses and insurance policies, and completion information and drawings of projects to the Purchaser (upon confirmation, to perform the handover procedures).

It is expected that the Shuifa Guangyao Completion Date will take place within six months after the date of completion of registration of change of shareholding of Shuifa Guangyao and Instalment 2 of the consideration, being RMB1,264,000, will be paid by the Purchaser to the Vendor on the Shuifa Guangyao Completion Date.

The transition period shall start from 30 April 2021 and end on the Shuifa Guangyao Completion Date, and the Vendor shall ensure that the shareholders' equity in Shuifa Guangyao shall not be reduced during the transition period. Within one month from the date of signing of the Shuifa Guangyao Sale and Purchase Agreement, the Vendor and the Purchaser agree to conduct a subsequent audit on the transition period of Shuifa Guangyao by the Original Auditor, and the audit results shall be approved by both parties. If, after audit, the shareholders' equity has been reduced due to the Vendor's breach of its undertakings during the transition period, the consideration shall be reduced accordingly. The reduction of consideration shall follow the following formula: the amount of reduction of shareholders' equity x 100%. If, after the reduction, the amount paid by the Purchaser has exceeded the reduced consideration, the Vendor shall return the excess to the Purchaser within t05 < du/0034704F0C , the)BscEMC /Spae704C0.7 0 0 1

-
-
- (8) it shall not amend any provisions of Shuifa Guangyao's articles of association;
 - (9) it shall not cause Shuifa Guangyao to make any material payment in respect of the Vendor and the Purchaser's taxation matters, except as agreed by the Vendor and the Purchaser;
 - (10) it shall not initiate or settle any litigation, arbitration or other proceedings that are material to the business of Shuifa Guangyao or involves a subject matter in excess of RMB500,000; and
 - (11) it shall not elect, replace, appoint or dismiss any executive directors, supervisors and senior management.

As at 30 April 2021, the audited shareholders' equity in Shuifa Guangyao under PRC GAAP was RMB1,580,110.14. The Company is not aware of any material changes in the financial information of Shuifa Guangyao after 30 April 2021 which may affect the consideration.

- (a) The project construction formalities of Shuifa Guangyao have been duly completed. In the event that Shuifa Guangyao suffers any administrative penalties or any losses due to issues with the project formalities, the Vendor shall be liable for such losses suffered by Shuifa Guangyao.
- (b) Vendor warrants that Shuifa Guangyao and Jiangsu Financial have signed the Jiangsu Financial Lease Agreement with a total rental amount of RMB7,088,700.00, and upon the signing of the Shuifa Guangyao Sale and Purchase Agreement, Shuifa Guangyao has duly and timely paid the rent to Jiangsu Financial in accordance with the Jiangsu Financial Lease Agreement, and

-
-
- (d) The Vendor shall be liable for any costs incurred by Shuifa Guangyao for the compliance of social insurance and provident fund contributions payment, or any adverse consequences such as disputes with the employees or administrative penalties arising from non-compliance of social insurance and provident fund contributions payment.

As at the Latest Practicable Date, the Company does not foresee any potential penalties or losses to Shuifa Guangyao or any adverse impact to the operations of Shuifa Guangyao due to matters set out in (a) to (d) above.

As far as the Company is aware, the due and timely payment of the rent under the Jiangsu Financial Lease Agreement after 30 April 2021 would not have any material effects on the financial information of Shuifa Guangyao which may affect the consideration for the Shuifa Guangyao Acquisition.

All necessary licenses, approvals, certificates and permits for the construction and business operation of the project under the Shuifa Guangyao have been obtained.

As at the Latest Practicable Date, there are no outstanding litigation or arbitration proceedings against Xintaishi Zhongmu.

Item (e) of the payment conditions above has not yet been satisfied as the certification of the safety evaluation report has not yet been obtained. The Vendor and Wang Qingchun has facilitated Xintaishi Zhongmu in engaging qualified third party agency to complete the safety evaluation for the 20MW grid-connected photovoltaic power generation project and to issue the corresponding safety evaluation report. As at the Latest Practicable Date, the safety evaluation report has been issued and is under the application process to obtain relevant certification from the competent authority. The Company is not aware of any legal impediment to obtain the relevant certification for the safety evaluation report. Apart from the certification of the safety evaluation report, there are no other outstanding pre-construction procedures and post-construction approval procedures and other relevant procedures for the 20MW grid-connected photovoltaic power generation project under item (e) of the payment conditions above.

The maximum potential penalty for the lack of required approvals for the 20MW grid-connected photovoltaic power generation project, is less than 10% of the construction fee of the project. Further, according to the Share Transfer Agreement of Xintai Zhongmu 20MW Photovoltaic Power Project, Wang Qingchun shall be liable for any additional costs incurred for satisfying item (e) above. The Directors are therefore of the view that the risks to the Company due to the lack of required approvals for the aforementioned project is low, and are of the view that the terms of the Xintaishi Zhongmu Acquisition are fair and reasonable and in the interests of the Company and its Shareholders as a whole.

Except for item (e), all other payment conditions disclosed above have been satisfied by Wang Qingchun.

It is expected that the payment of RMB7,905,000 to Wang Qingchun by the Purchaser will be around June 2022 as Xintaishi Zhongmu expects that the outstanding certification of the safety evaluation report of the 20MW grid-connected photovoltaic power generation project will be completed around June 2022.

Taking into account that (i) the Vendor, Xintaishi Zhongmu and the Purchaser are all wholly or partially owned by the Shuifa Group; (ii) apart from the consent required from Cpi Ronghe, the equity interests in Xintaishi Zhongmu is clear, legal and valid and there is no dispute or controversy in relation to the equity interests in Xintaishi Zhongmu; and (iii) Shuifa Group has completed its internal approval procedures in relation to the Xintaishi Zhongmu Acquisition, the Directors are therefore of view that the risk of unsuccessful registration of the change of shareholding is low. Further, in the event that the registration of the change of shareholding is not completed within ten business days after all the Xintaishi Zhongmu CPs are satisfied, the Vendor has agreed to refund and/or arrange the refund of the amount of consideration already paid by the Purchaser to Vendor and/or Wang Qingchun, to the Purchaser within two business days thereafter and the Xintaishi Zhongmu Sale and Purchase Agreement and the Xintaishi Zhongmu Transfer of Rights Agreement shall be lapsed. The Directors therefore consider that the payment terms of the Xintaishi Zhongmu Acquisition are fair and reasonable and in the interests of the Company and its Shareholders as a whole. It is expected that the date of registration of the change of shareholding will be three business days after all the Xintaishi Zhongmu CPs are satisfied and the completion of registration will depend on the processing time of the local Administration for Industry and Commerce.

The consideration for the Xintaishi Zhongmu Acquisition was determined after arm's length negotiation between the Purchaser and the Vendor by reference to, among others, the historical financial performance of Xintaishi Zhongmu and the assets and liabilities of Xintaishi Zhongmu. In addition, the Purchaser also took into account the valuation of the 86% equity interest in Xintaishi Zhongmu at approximately RMB136,000,000 by using the market-based approach as at 30 April 2021 by the Valuer in the Valuation Report.

Taking into account that (i) the consideration payable for the Xintaishi Zhongmu Acquisition is lower than the valuation of the 86% equity interest in Xintaishi Zhongmu; (ii) the potential value of the power generation project solely invested and owned by Xintaishi Zhongmu as disclosed under the section headed "Information on Xintaishi Zhongmu" below; and (iii) the reasons for and benefits of the Acquisitions as stated under the section headed "Information on the Purchaser and the reasons for and benefits of the Acquisitions" below, the Directors are of the view that the consideration payable for the Xintaishi Zhongmu Acquisition is fair and reasonable and in the interests of the Company and its Shareholders as a whole.

Although the consideration payable for the Xintaishi Zhongmu Acquisition is higher than the original acquisition cost of the Vendor, taking into account that (i) at the time that the Vendor acquired the 85% shares in Xintaishi Zhongmu, the 20MW grid-connected photovoltaic power generation project was not yet listed on the national renewable energy subsidy list (listed on 31 May 2021); (ii) the actual annual power generation of the 20MW grid-connected photovoltaic power generation project is higher than the annual power generation estimated at the time when the Vendor acquired the 85% shares in Xintaishi Zhongmu; (iii) the Vendor and Wang Qingchun have facilitated Xintaishi Zhongmu in engaging qualified third party agency to complete the conservation of water and soil evaluation and the safety evaluation for the 20MW grid-connected photovoltaic power generation project and to issue the corresponding evaluation reports, in which regarding the conservation of water and soil evaluation, the project has received the Certificate of Independent Acceptance of Water Conservation Facilities for Zhongmu Xintai 20MW Grid-connected Photovoltaic Power Generation Project* (《關於對中穆新泰20MW并網光伏發電項目水保設施自主驗收報備證明的函》) issued by the Xintai Water Conservancy Bureau* (新泰市水利局) on 22 October 2021. Further, with the facilitation of the Vendor and Wang Qingchun, Xintaishi Zhongmu has also obtained the property certificate of the 20MW grid-connected photovoltaic power generation project. The risks of the aforementioned project is therefore lowered; (iv) the Vendor has conducted regular technical improvements and updates to the project equipment which has kept the project in better operation conditions and has increased the project's power generation and revenue; (v) after the acquisition by Vendor, the net asset value of Xintaishi Zhongmu has increased and Xintaishi Zhongmu has not paid any dividends to its shareholders; and (vi) with the implementation of the Chinese government policies such as “carbon peaking” and “carbon neutrality”, and due to the scarcity of land and grid-connected resources, the 20MW grid-connected photovoltaic power generation project is one of scarce project resources and is marketed at a good premium, the Directors are of the view that the consideration payable for the Xintaishi Zhongmu Acquisition, at a premium to the original acquisition cost of the Vendor, is fair and reasonable and in the interests of the Company and its Shareholders as a whole.

The Purchaser shall pay RMB29,412,000 of the consideration to the Vendor after all of the following conditions precedent (“ ”) are being satisfied:

- (a) the board of directors and shareholders of the Purchaser having approved the Xintaishi Zhongmu Acquisition;
- (b) the Independent Shareholders having approved the transactions contemplated under the Xintaishi Zhongmu Sale and Purchase Agreement in accordance with the Listing Rules;

-
-

 - (d) the Vendor not having materially breached any of the warranties given by it under the Xintaishi Zhongmu Sale and Purchase Agreement;
 - (e) Cpi Ronghe having agreed to cooperate with the Vendor to discharge the pledge on 86% equity interest in Xintaishi Zhongmu; and
 - (f) there has not been any material adverse impact on Xintaishi Zhongmu since 30 April 2021.

No party shall have the right to waive any of the above conditions. As at the Latest Practicable Date, condition (c) above has been satisfied.

Completion of Xintaishi Zhongmu Acquisition shall take place on the date of completion of all of the following (the “ ”):

- (a) the submission of the relevant documents and the completion of registration with the local Administration for Industry and Commerce in respect of changes in relation to the Xintaishi Zhongmu Acquisition. Within three business days after the completion of registration, Xintaishi Zhongmu shall provide the Purchaser with the relevant supporting documents (including the new articles of association filed with the local Administration for Industry and Commerce); and
- (b) the transfer of all financial books (electronic and manual), account information, bank account information, cash, deposits, financial seals, bills, vouchers and information necessary for the daily operation and management of Xintaishi Zhongmu, various documents and Xintaishi Zhongmu’s assets including but not limited to fixed assets, land certificates, real estate certificates, personnel files, various certificates (business licenses, tax registration certificates, organization code certificates and other approval certificates, permit certificates, qualification certificates, approvals and proofs, etc.), agreements, contracts, company seals, seals of legal representatives, business records, vehicle licenses and insurance policies, and completion information and drawings of projects to the Purchaser (upon confirmation, to perform the handover procedures).

It is expected that the Xintaishi Zhongmu Completion Date will take place within six months after the date of completion of registration of change of shareholding of Xintaishi Zhongmu and the remaining amount of the consideration, being RMB11,703,000, will be paid by the Purchaser to the Vendor on the Xintaishi Zhongmu Completion Date.

The transition period shall start from 30 April 2021 and end on the Xintaishi Zhongmu Completion Date, and the Vendor shall ensure that the shareholders' equity in Xintaishi Zhongmu shall not be reduced during the transition period. Within one month from the date of signing of the Xintaishi Zhongmu Sale and Purchase Agreement, the Vendor and the Purchaser agree to conduct a subsequent audit on the transition period of Xintaishi Zhongmu by the Original Auditor, and the audit results shall be approved by both parties. If, after audit, the shareholders' equity has been reduced due to the Vendor's breach of its undertakings during the transition period, the consideration shall be reduced accordingly. The reduction of consideration shall follow the following formula: the amount of reduction of shareholders' equity x 86%. If, after the reduction, the amount paid by the Purchaser has exceeded the reduced consideration, the Vendor shall return the excess to the Purchaser within ten business days or deduct it directly from any subsequent payment to be made by the Purchaser to the Vendor. If the amount paid by the Purchaser is unable to make up the reduced consideration, it shall be made up by the Purchaser in cash. If the shareholders' equity has increased during the transition period, the increase shall belong to Xintaishi Zhongmu and the consideration will not be adjusted.

During the transition period, the Vendor undertakes that:

- (1) it shall exercise good faith in performing its management duties to ensure that Xintaishi Zhongmu's revenue shall not be reduced;
- (2) except with prior written consent by the Purchaser, it will not sell, assign or transfer part or all of the 86% equity interests of Xintaishi Zhongmu, or create any security rights or other restrictive rights on the 86% equity interests of Xintaishi Zhongmu, and it will ensure that Xintaishi Zhongmu shall conduct its normal operations;

 - (11) it shall not elect, replace, appoint or dismiss any executive directors, supervisors and senior management.

As at 30 April 2021, the audited shareholders' equity in Xintaishi Zhongmu under PRC GAAP was RMB44,121,165.25. The Company is not aware of any material changes in the financial information of Xintaishi Zhongmu after 30 April 2021 which may affect the consideration.

On 30 September 2021, the Purchaser entered into the Xintaishi Zhongmu Transfer of Rights Agreement with the Vendor, Shuifa Energy, Wang Qingchun and Xintaishi Zhongmu, pursuant to which, the parties agree that:

- (a) Wang Qingchun fully agrees and has no objection to the Share Transfer Agreement of Xintai Zhongmu 20MW Photovoltaic Power Project and the succession by the Vendor to all of Shuifa Energy's rights in the Share Transfer Agreement of Xintai Zhongmu 20MW Photovoltaic Power Project.
- (b) From the effective date of the Xintaishi Zhongmu Transfer of Rights Agreement, the Purchaser shall enjoy all rights enjoyed by the Vendor under the Share Transfer Agreement of Xintai Zhongmu 20MW Photovoltaic Power Project.
- (c) Shuifa Energy, Wang Qingchun and Xintaishi Zhongmu undertake that they will perform their respective obligations under the Share Transfer Agreement of Xintai Zhongmu 20MW Photovoltaic Power Project in favour of the Purchaser.
- (d) In satisfying one of the payment conditions by Wang Qingchun as stated under the section headed "Acquisitions" above, Wang Qingchun has pledged its 15% shares in Xintaishi Zhongmu to Shuifa Energy on 27 December 2017. As stated under the section headed "Information on Xintaishi Zhongmu", on 21 July 2021, 1% equity interest of Xintaishi Zhongmu was transferred by Wang Qingchun to the Vendor without consideration. Pursuant to the transfer, the 1% equity interest of Xintaishi Zhongmu was no longer pledged to Shuifa Energy. As at the Latest Practicable Date, 14% equity interest of Xintaishi Zhongmu held by Wang Qingchun was charged to Shuifa Energy. As the Vendor has succeeded all of Shuifa Energy's rights in the Share Transfer Agreement of Xintai Zhongmu 20MW Photovoltaic Power Project (item (a) above), and

the Purchaser enjoy all rights enjoyed by the Vendor under the Share Transfer Agreement of Xintai Zhongmu 20MW Photovoltaic Power Project (item (b) above), if the Purchaser subsequently gives written notice to Wang Qingchun and requests to enforce its rights under the Share Transfer Agreement of Xintai Zhongmu 20MW Photovoltaic Power Project, Wang Qingchun shall, within three business days of receipt of such written notice, send a written request to Shuifa Energy to release the pledge on the shares of Xintaishi Zhongmu, and Shuifa Energy shall agree to cooperate in the release procedure and within three business days from the date of Shuifa Energy's agreement to cooperate in the release procedure: (i) release the pledged shares of Xintaishi Zhongmu and (ii) pledge the shares of Xintaishi Zhongmu to the Purchaser and complete the registration of the pledge.

- (e) From the effective date of the Xintaishi Zhongmu Transfer of Rights Agreement, the Purchaser shall assume all obligations of the Vendor under the Share Transfer Agreement of Xintai Zhongmu 20MW Photovoltaic Power Project. The parties agree that, upon all payment conditions are being satisfied by Wang Qingchun, the Purchaser shall pay RMB7,905,000 to Wang Qingchun directly and RMB7,905,000 shall be deducted from the consideration of the Xintaishi Zhongmu Acquisition.

In relation to item (d) above, Shuifa Energy, Wang Qingchun, Xintaishi Zhongmu and the Purchaser have agreed to release the shares of Xintaishi Zhongmu that are pledged to Shuifa Energy, pledge the shares of Xintaishi Zhongmu to the Purchaser and complete the registration of the pledge. Obligations and warranties undertaken by Wang Qingchun	:	Wang Qingchun shall satisfy the payment conditions as stated under the section headed "Acquisitions". Any losses suffered by the Vendor as a result of a breach of any representations, undertakings and warranties provided by Wang Qingchun, shall be borne by Wang Qingchun.

The signing of the Xintaishi Zhongmu Transfer of Rights Agreement is interconditional with the Xintaishi Zhongmu Acquisition.

On 30 September 2021, the Purchaser entered into the Dongying Tianze Transfer of Rights Agreement with the Vendor, Shandong Landi New Energy Development Co., Ltd.* (山東藍迪新能源開發有限公司) (“ ”), Shandong Tianrong Ruilin New Energy Co., Ltd.* (山東天融瑞麟新能源有限公司) (“ ”), Jinan Ruipu Investment Partnership Enterprise (Limited Partnership)* (濟南瑞璞投資合夥企業(有限合夥)) (“ ”) and Dongying Tianze, pursuant to which, the parties agree that, from the effective date of the Dongying Tianze Transfer of Rights Agreement:

- (a) the Purchaser shall enjoy all rights enjoyed by the Vendor under the Share Transfer Agreement of Dongying Tianze 25MW Fishery and Solar Power Project, the Supplementary Agreement to the Share Transfer Agreement of Dongying Tianze and the Dongjiu Tianze PV Plant Operation and Maintenance Escrow Agreement; and
- (b) Shandong Landi, Shandong Tianrong Ruilin, Jinan Ruipu Partnership and Dongying Tianze undertake that they will perform their respective obligations and warranties under such agreements in favour of the Purchaser.

Obligations and warranties undertaken by Shandong Landi and Shandong Tianrong Ruilin : Shandong Landi and Shandong Tianrong Ruilin warrant that the annual electricity generation of the Dongjiu Tianze Photovoltaic Power Generation Station* (東九天澤光伏電站) shall reach the value stipulated in the electricity underwriting letter.

In the event that the annual electricity generation of the power station is less than 70% of the value stipulated in the electricity underwriting letter:

- (a) the Vendor shall be entitled to dispose the 30% shares in Dongying Tianze pledged by Shandong Landi and Shandong Tianrong Ruilin;
- (b) the Vendor and Jinan Ruipu Partnership shall be entitled to conduct a revaluation of Dongying Tianze based on the actual electricity generated by the power station, and Shandong Landi shall pay immediately upon the demand of the Vendor and Jinan Ruipu Partnership the differences of the value of Dongying Tianze as determined at the time of such revaluation and the value of Dongying Tianze as determined at the time that the Vendor and Jinan Ruipu Partnership acquired the shares of Dongying Tianze from Shandong Landi to the Vendor and Jinan Ruipu Partnership; and
- (c) the Vendor and Jinan Ruipu Partnership shall be entitled to demand Shandong Landi to repurchase the shares of Dongying Tianze at a consideration no less than the consideration payable by the Vendor and Jinan Ruipu Partnership, and to compensate the Vendor and Jinan Ruipu Partnership for any losses suffered.

and the obligations undertaken by Shandong Landi and Shandong Tianrong Ruilin” is being satisfied, Dongying Tianze’s obligations under the Huarun Financial Lease Agreement would have also been satisfied and the 30% shares in Dongying Tianze held by Shandong Landi and Shandong Tianrong Ruilin would be pledged to the Purchaser as mentioned above. The Directors are therefore of the view that the terms of the Dongying Tianze Transfer of Rights Agreement are fair and reasonable and in the interests of the Company and its Shareholders as a whole.

Pursuant to the electricity underwriting letter, the annual electricity generation of the Dongjiu Tianze Photovoltaic Power Generation Station shall be:

The annual electricity generation of Dongjiu Tianze Photovoltaic Power Generation Station in 2018, 2019 and 2020 are 36,689,500 Watts, 35,618,200 Watts and 33,500,300 Watts respectively. As the annual electricity generation in the past three years was not less than 70% of the annual electricity generation value stipulated in the electricity underwriting letter, the Directors are of the view that the risks of annual electricity generation value being lower than 70% of the annual electricity generation value stipulated in the electricity underwriting letter is minimal.

Pursuant to the Dongjiu Tianze PV Plant Operation and Maintenance Escrow Agreement, Shandong Tianrong Ruilin shall be responsible for the operation and maintenance of the Dongjiu Tianze Photovoltaic Power Generation Station. The principal obligations of Shandong Tianrong Ruilin are (i) to establish a detailed implementation plan for the operation and maintenance of the Dongjiu Tianze Photovoltaic Power Generation Station; (ii) to accurately record the electricity consumption of the customers and to deliver the record promptly to Dongying Tianze; (iii) to conduct inspection, calibration and measurement work for the equipment in the Dongjiu Tianze Photovoltaic Power Generation Station; (iv) to conduct troubleshooting within 24 hours in the event of system failure; and (v) to regularly report to Dongying Tianze in relation to its operation and maintenance work. In the event that Shandong Tianrong Ruilin is unable to duly perform its obligations under the Dongjiu Tianze PV Plant Operation and Maintenance Escrow Agreement which results in losses or damages to the Dongjiu Tianze Photovoltaic Power Generation Station, it shall be liable for the damages of no more than 10% of the annual operation and maintenance fee, which is a fixed fee of approximately RMB1,800,000 per year (except the first year of operation, being RMB1,500,000). The amount of damages shall be determined based on the losses suffered by Dongying Tianze as a result of the breach of the Dongjiu Tianze PV Plant Operation and Maintenance Escrow Agreement by Shandong Tianrong Ruilin. The amount of damages first shall be negotiated between Dongying Tianze and Shandong Tianrong Ruilin. In the event that the parties are unable to reach an agreement on the amount of damages, an appraisal agency may be jointly appointed by the parties to conduct an assessment to determine the amount of damages. After the amount of damages is determined, Shandong Tianrong Ruilin shall immediately pay such damages to Dongying Tianze. Although the Vendor is not a party to the Dongjiu Tianze PV Plant Operation and Maintenance Escrow Agreement, Shandong Tianrong Ruilin, being responsible for the operation and maintenance of the Dongjiu Tianze Photovoltaic Power Generation Station and one of the parties of the Share Transfer Agreement of Dongying Tianze 25MW Fishery and Solar Power Project and the Supplementary Agreement to the Share Transfer Agreement of Dongying Tianze warranting the annual electricity generation of Dongjiu Tianze Photovoltaic Power Generation Station, Dongjiu Tianze PV Plant Operation and Maintenance Escrow Agreement was therefore also listed as one of the agreements under the Dongying Tianze Transfer of Rights Agreement.

The signing of the Dongying Tianze Transfer of Rights Agreement is interconditional with the Dongying Tianze Acquisition.

Immediately after the Completions, Shuifa Guangyao will be owned by the Purchaser as to 100% and will become a wholly-owned subsidiary of the Company, and Xintaishi Zhongmu and Dongying Tianze will be owned by the Purchaser as to 86% and 68% respectively and will become non-wholly owned subsidiaries of the Company. Accordingly, the financial results of the Target Companies will be consolidated into the Company's consolidated financial statements upon the Completions.

Both parties agreed that Shuifa Guangyao shall be responsible for the construction, operation and maintenance of the distributed photovoltaic power station, whereas Heze Zhongxing shall pay to Shuifa Guangyao the fees for the power used by Heze Zhongxing. The project is solely invested and owned by Shuifa Guangyao, and is constructed at Heze No.2 Sewage Treatment Plant, Economic and Technological Development Zone, Heze City, Shandong Province, the PRC, which covers an area of 30,000m², and with an investment amount of RMB14,000,000. The project uses 6,154 photovoltaic modules, utilises a steel structure to construct the framework and arranges the battery components with a flexible support structure, and together with 30 sets of 60KW string inverters which are connected to the 380V side of the sewage treatment plant after converging the power through the combining manifolds in order to achieve grid connection. The project adopts a “self-generating for self-use, feed excess into the grid” mode, hence the electricity generated from the project will be supplied to Heze No.2 Sewage Treatment Plant for use. The project was completed and connected to the grid on 30 November 2019. From January 2020 up to September 2021, the average annual power generation of the project was 2.47 million kWh.

The Vendor was the sole shareholder of Shuifa Guangyao. On 30 November 2020, the board of directors of the Vendor resolved that the Vendor shall pay the subscribed registered capital by converting the RMB1,000,000 debt receivable from Shuifa Guangyao into equity. The Company was informed by Shuifa Guangyao that the Vendor has paid the subscribed registered capital by converting the RMB1,000,000 debt receivable from Shuifa Guangyao into equity.

The project began construction in May 2016, and completed 25MW grid-connected power generation. In view of the fact that the project only obtained the 25MW scale indicator issued in 2016 and it was difficult for the project to obtain the remaining 24MW scale indicator in the short term, at the request of State Grid Shandong Province Electric Power Company* (國網山東省電力公司), Dongying Tianze applied to change the final grid-connected capacity of the project to 25MW, and the remaining 24MW will not be built. The application was agreed by Dongying City Development and Reform Commission* (東營市發展和改革委員) on 15 May 2018. Since 1 August 2018, Dongying Tianze has entrusted Shandong Tianrong Ruilin with the operation and maintenance of the entire power plant. The average annual power generation is approximately 36 million kWh.

The 68% equity interest in Dongying Tianze, being the subject matter of the Dongying Tianze Acquisition, was acquired by the Vendor from Shandong Landi (i.e. the then controlling shareholder of Dongying Tianze) on 29 April 2019 at a consideration of RMB12,185,600. Pursuant to the share transfer agreement between the Vendor, Shandong Landi and others in relation to the acquisition of 68% equity interest in Dongying Tianze by the Vendor, the Vendor was also required to inject RMB16,660,000 as capital contributions into Dongying Tianze on or before 10 May 2019. The Company was informed by the Vendor that this was the result of extended discussions and negotiations between the Vendor and Shandong Landi, and that the consideration and the capital contributions were determined by reference to, among others, the market situation at the time of the transaction. The Company was informed by Dongying Tianze that the capital contributions of RMB16,660,000 had been fully injected by the Vendor into Dongying Tianze.

Based on the consolidated financial statements of Dongying Tianze prepared in accordance with the PRC GAAP, the profit or loss of Dongying Tianze before and after taxation is as follows:

It also engages in the production and sale of renewable energy goods, including smart grid system and solar thermal products such as air-source heat pump, solar heat collectors and solar heating system. Since the year ended 31 December 2014, the Group has also self-developed solar projects some of which the Group has sold in prior years to enhance its cash flow position and allow the Group to reallocate its resources for future development.

Following completion of the whitewash transaction by which Shuifa Energy became a majority shareholder of the Company in late November 2019 and completion of the debt restructuring scheme in December 2019, the Company has been exploring ways by which the Group can expand its clean energy business and strengthen its financial performance going forward. As stated in its 2019 annual report, the Company plans to tap into the broader clean energy sector and develop other forms of clean energy business, such as gas, heating and hydrogen energy, on the back of its established solar energy, wind energy and stored energy businesses with an ultimate goal to developing into a clean energy industry cluster with multiple capabilities and complementary advantages.

LQ

The Group has more than six years of experience in the construction of solar power plants with a total capacity of 5,150 MW. The Group has also completed six years of experience in the construction of gas power plants with a total capacity of 1,000 MW.

The Acquisitions are in line with the Group's strategy to strengthen its financial performance while the Group seeks to expand its portfolio of power generation projects. With reference to the Fourteenth Five Year Plan, the PRC government will focus on enhancing the quality and efficacy of the overall economy with a view to attain sustainable and healthy development through, among others, (i) the improvement of supply chain modernisation* (提升產業鏈供應鏈現代化水準); (ii) the development of strategic new industries* (發展戰略性新興產業); (iii) the acceleration of modern service industries development* (加快發展現代服務業); (iv) the coordination of infrastructure construction advancement* (統籌推進基礎設施建設); and (v) the acceleration of the development of digitalisation* (加快數位化發展). As advised by the Management, the Acquisitions enable the Group to build up a balance solar farm assets portfolio. Majority of the Group's solar farm assets are currently located in northwest part of China and Guangdong province, while the solar farms acquired in each of the Acquisitions are located in Northern part of China, it reduces the impact from grid curtailment and extreme weather condition in a specific area. It also allows the Group to exploit the underlying business opportunities in the solar energy market in the PRC as driven by the strategic policies in relation to the development and construction of infrastructure set out above, which is in line with the overall macro development as set out in the Fourteenth Five Year Plan.

In addition, according to the notice regarding the promotion of wind power and photovoltaic power published by the National Development and Reform Commission in March 2021, the PRC government has encouraged the development of renewable energy by several means, including but not limited to, (i) providing subsidy to enterprises principally engaged in renewable energy business; (ii) relevant financial institutions should recognise the importance of the development of renewable energy and proactively provide financial assistance to enterprises in renewable energy industry. Furthermore, according to the notice regarding launching the second batch of smart photovoltaic demonstrations published by the Ministry of Industry and Information Technology of the People's Republic of China in March 2021, qualified enterprises are encouraged to participate in the photovoltaic demonstrations so as to promote the expansion and application of photovoltaic power. Accordingly, it is expected that there will be sustainable development in the solar energy market in the PRC.

Both parties agreed that Shuifa Guangyao shall be responsible for the construction, operation and maintenance of the distributed photovoltaic power station, whereas Heze Zhongxing shall pay to Shuifa Guangyao the fees for the power used by Heze Zhongxing. The project is solely invested and owned by Shuifa Guangyao, and is constructed at Heze No.2 Sewage Treatment Plant, Economic and Technological Development Zone, Heze City, Shandong Province, the PRC, which covers an area of 30,000 m², and with an investment amount of RMB14,000,000. The project uses 6,154 photovoltaic modules, utilises a steel structure to construct the framework and arranges the battery components with a flexible support structure, and together with 30 sets of 60KW string inverters which are connected to the 380V side of the sewage treatment plant after converging the power through the combining manifolds in order to achieve grid connection. The project adopts a “self-generating for self-use, feed excess into the grid” mode, hence the electricity generated from the project will be supplied to Heze No.2 Sewage Treatment Plant for use. The project was completed and connected to the grid on 30 November 2019. From January 2020 up to September 2021, the average annual power generation of the project was 2.47 million kWh.

As at the date of the Xintaishi Zhongmu Sale and Purchase Agreement, the installed capacity of Xintaishi Zhongmu’s photovoltaic power plant is 20MW, and the average annual power generation is approximately 27 million kWh.

85% equity interest of Xintaishi Zhongmu was acquired by the Vendor from Shuifa Energy (i.e. the then controlling shareholder of Xintaishi Zhongmu) on 7 November 2018 at a consideration of RMB18,445,000. The Company was informed by the Vendor that this was the result of extended discussions and negotiations between the Vendor and Shuifa Energy. The Company was also informed by the Vendor that the consideration was determined by reference to, among others, the market situation at the time of the transaction.

Further, pursuant to the Share Transfer Agreement of Xintai Zhongmu 20MW Photovoltaic Power Project, upon meeting certain conditions, a further 1% equity interest of Xintaishi Zhongmu shall be transferred by Wang Qingchun to Shuifa Energy without consideration. Dongying Tianze is principally engaged in construction and operation of photovoltaic power generation projects (including the 49MW fishery-solar complementary photovoltaic grid-connected power generation project).

Dongying Tianze has invested in the 49MW fishery-solar complementary photovoltaic grid-connected power generation project. The project is solely invested and owned by Dongying Tianze, and has obtained the “Registration Record Certificate” issued by Dongying City Development and Reform Commission* (東營市發展和改革委員) in December 2015 for the construction of, including but not limited to, the 49MW fishery-solar complementary photovoltaic grid-connected power generation system, inverter, transformer, combining manifolds and distribution facility. The project began construction in May 2016, and completed 25MW grid-connected power generation. In view of the fact that the project only obtained the 25MW scale indicator issued in 2016 and it was difficult for the project to obtain the remaining 24MW scale indicator in the short term, at the request of State Grid Shandong Province Electric Power Company* (國網山東省電力公司), Dongying Tianze applied to change the final grid-connected capacity of the project to 25MW, and the remaining 24MW will not be built. The application was agreed by Dongying City Development and Reform Commission* (東營市發展和改革委員) on 15 May 2018. Since 1 August 2018, Dongying Tianze has entrusted Shandong Tianrong Ruilin with the operation and maintenance of the entire power plant. The average annual power generation is approximately 36 million kWh.

The 68% equity interest in Dongying Tianze, being the subject matter of the Dongying Tianze Acquisition, was acquired by the Vendor from Shandong Landi (i.e. the then controlling shareholder of Dongying Tianze) on 29 April 2019 at a consideration of RMB12,185,600. Pursuant to the share transfer agreement between the Vendor, Shandong Landi and others in relation to the acquisition of 68% equity interest in Dongying Tianze by the Vendor, the Vendor was also required to inject RMB16,660,000 as capital contributions into Dongying Tianze on or before 10 May 2019. The Company was informed by the Vendor that this was the result of extended discussions and negotiations between the Vendor and Shandong Landi, and that the consideration and the capital contributions were determined by reference to, among others, the market situation at the time of the transaction. The Company was informed by Dongying Tianze that the capital contributions of RMB16,660,000 had been fully injected by the Vendor into Dongying Tianze.

Based on the consolidated financial statements of Dongying Tianze prepared in accordance with the PRC GAAP, the profit or loss of Dongying Tianze before and after taxation is as follows:

	For the	For the financial year ended	
	<i>(audited)</i>	<i>(audited)</i>	<i>(audited)</i>
	<i>RMB</i>	<i>RMB</i>	<i>RMB</i>
Net profit/(loss) before tax	3,867,980.1	5,661,574.1	6,417,255.5
Net profit/(loss) after tax	3,738,799.4	5,661,574.1	6,417,255.5

As at 30 June 2021, the audited consolidated net assets value of Dongying Tianze under PRC GAAP was RMB64,261,769.1.

4. Reasons for and benefits of the Acquisitions

As set out in the Letter from the Board, following completion of the whitewash transaction by which Shuifa Energy became a majority shareholder of the Company in late November 2019 and completion of the debt restructuring scheme in December 2019, the Company has been exploring ways by which the Group can expand its clean energy business and strengthen its financial performance going forward. As stated in its 2019 annual report, the Company plans to tap into the broader clean energy sector and develop other forms of clean energy business, such as gas, heating and hydrogen energy, on the back of its established solar energy, wind energy and stored energy businesses with an ultimate goal to developing into a clean energy industry cluster with multiple capabilities and complementary advantages.

The Group has more than six years of experience in solar farm operations and currently owns more than 480MW of grid-connected solar farms within and outside the Mainland China, accounting for approximately 7.8% of the Group's revenue (including tariff adjustment) and approximately 23.0% of the Group's gross profit (including tariff adjustment) for the period ended 30 June 2021. Details of the Group's self-invested solar power stations as at 30 June 2021 are set out in the section headed "Information on the Purchaser and the reasons for and benefits of the Acquisitions" in the Letter from the Board.

As the Target Companies are principally engaged in construction and operation of solar power generation projects, the principal businesses of the Target Companies are in line with the Group's existing businesses as a renewable energy solution provider and building contractor with solar farm operations.

The Acquisitions are in line with the Group's strategy to strengthen its financial performance while the Group seeks to expand its portfolio of power generation projects. The Target Companies are fully operational and can generate a positive income (and profit) while the Group needs not seek for investment opportunities in other new solar power projects with the risks of cost overruns, delays in completion and production and lower tariff. In addition, as the Target Companies carry out their business in Shandong province, it allows the Group to extend its solar projects footprint to Northern part of China and leverage on the resources of the Shuifa Group in Shandong province.

Considering that (i) the principal businesses of the Target Companies are in line with the Group's existing businesses; (ii) the Acquisitions are in line with the future development plans of the Group and the Target Companies are fully operational and can generate a positive income (and profit) with limited capital investment in the future; and (iii) the signing of the Transfer of Rights Agreements are interconditional with the Xintaishi Zhongmu Acquisition and Dongying Tianze Acquisition, respectively, we concur with the Directors that the terms of the Sale and Purchase Agreements, the Acquisitions and the transactions contemplated thereunder are fair and reasonable and in the interests of the Company and its Shareholders as a whole.

Having considered that (i) the Target Companies already made a profit for the year ended 31 December 2020; and (ii) the Acquisitions are in line with the Group's stated strategy to grow into an enterprise with a focus on clean energy business, we concur with the Directors that the Acquisitions are in line with the business development strategy and future plan of the Group and is in the interests of the Company and its Shareholders as a whole.

Xintaishi Zhongmu, being owned as to 86% by the Vendor and therefore an associate of the Vendor, is also a connected person of the Company.

Parties agree that pursuant to the signing of the Xintaishi Zhongmu Transfer of Rights Agreement, and upon all the payment conditions are being satisfied by Wang Qingchun, the Purchaser shall pay RMB7,905,000 to Wang Qingchun directly.

3	11,703,000	Within six months after the date of completion of registration of the change of shareholding.
---	------------	---

Details of the payment conditions to be satisfied by Wang Qingchun pursuant to the Share Transfer Agreement of Xintai Zhongmu 20MW Photovoltaic Power Project are set out in the section headed “The Acquisitions — Xintaishi Zhongmu Sale and Purchase Agreement”.

As stated in the Letter from the Board, item (e) of the payment conditions, which stated in the payment conditions in section headed “The Acquisitions - Xintaishi Zhongmu Sale and Purchase Agreement” in the Letter from the Board, has not yet been satisfied as the certification of the safety evaluation report has not yet been obtained.

The Vendor and Wang Qingchun has facilitated Xintaishi Zhongmu in engaging qualified third party agency to complete the safety evaluation for the 20MW grid-connected photovoltaic power generation project and to issue the corresponding safety evaluation report. As at the Latest Practicable Date, the safety evaluation report has been issued and is under the application process to obtain relevant certification from the competent authority. The Company is not aware of any legal impediment to obtain the relevant certification for the safety evaluation report. Apart from the certification of the safety evaluation report, there are no other outstanding pre-construction procedures and post-construction approval procedures and other relevant procedures for the 20MW grid-connected photovoltaic power generation project under item (e) of the payment conditions.

The maximum potential penalty for the lack of required approvals for the 20MW grid-connected photovoltaic power generation project, is less than 10% of the construction fee of the project. Further, according to the Share Transfer Agreement of Xintai Zhongmu 20MW Photovoltaic Power Project, Wang Qingchun shall be liable for any additional costs incurred for satisfying item (e) as stated in the payment conditions. We concur with the Directors’ view that the risks to the Company due to the lack of required approvals for the aforementioned project is low, and are of the view that the terms of the Xintaishi Zhongmu Acquisition are fair and reasonable and in the interests of the Company and its Shareholders as a whole.

Except for item (e) as stated in the payment conditions set out in section headed “The Acquisitions - Xintaishi Zhongmu Sale and Purchase Agreement” in the Letter from the Board, all other payment conditions disclosed therein have been satisfied by Wang Qingchun.

It is expected that the payment of RMB7,905,000 to Wang Qingchun by the Purchaser will be around June 2022 as Xintaishi Zhongmu expects that the outstanding certification of the safety evaluation report of the 20MW grid-connected photovoltaic power generation project will be completed around June 2022.

As stated in the Letter from the Board, apart from the consent required from Cpi Ronghe, the equity interests in Xintaishi Zhongmu is clear, legal and valid and there is no dispute or controversy in relation to the equity interests in Xintaishi Zhongmu and Shuifa Group has completed its internal approval procedures in relation to the Xintaishi Zhongmu Acquisition. Further, in the event that the registration of the change of shareholding is not completed within ten business days after all the Xintaishi Zhongmu CPs are satisfied, the Vendor has agreed to refund and/or arrange the refund of the amount of consideration already paid by the Purchaser to Vendor and/or Wang Qingchun, to the Purchaser within two business days thereafter and the Xintaishi Zhongmu Sale and Purchase Agreement and the Xintaishi Zhongmu Transfer of Rights Agreement shall be lapsed. As such, we concur with the Directors' view that the risk of unsuccessful registration of the change of shareholding is low, and consider that the payment terms of the Xintaishi Zhongmu Acquisition are fair and reasonable and in the interests of the Company and its Shareholders as a whole.

The consideration for the Xintaishi Zhongmu Acquisition was determined after arm's length negotiation between the Purchaser and the Vendor by reference to, among others, the historical financial performance of Xintaishi Zhongmu and the assets and liabilities of Xintaishi Zhongmu. In addition, the Purchaser also took into account the valuation of the 86% equity interest in Xintaishi Zhongmu at approximately RMB136.0 million by using the market-based approach as at 30 April 2021 by the Valuer in the Valuation Report.

Taking into account that (i) the consideration payable for the Xintaishi Zhongmu Acquisition is lower than the valuation of the 86% equity interest in Xintaishi Zhongmu; (ii) the potential value of the power generation project solely invested and owned by Xintaishi Zhongmu as disclosed under the section headed "Information on Xintaishi Zhongmu" set out in the Letter from the Board; and (iii) the reasons for and benefits of the Acquisitions as stated under the section headed "Information on the Purchaser and the reasons for and benefits of the Acquisitions" set out in the Letter from the Board, the Directors are of the view that the consideration payable for the Xintaishi Zhongmu Acquisition is fair and reasonable and in the interests of the Company and its Shareholders as a whole.

Within one month from the date of signing of the Xintaishi Zhongmu Sale and Purchase Agreement, the Vendor and the Purchaser agree to conduct a subsequent audit on the transition period of Xintaishi Zhongmu by the Original Auditor, and the audit results shall be approved by both parties. If, after audit, the shareholders’ equity has been reduced due to the Vendor’s breach of its undertakings during the transition period, the consideration shall be reduced accordingly. The reduction of consideration shall follow the following formula: the amount of reduction of shareholders’ equity x 86%. If, after the reduction, the amount paid by the Purchaser has exceeded the reduced consideration, the Vendor shall return the excess to the Purchaser within ten business days or deduct it directly from any subsequent payment to be made by the Purchaser to the Vendor. If the amount paid by the Purchaser is unable to make up the reduced consideration, it shall be made up by the Purchaser in cash. If the shareholders’ equity has increased during the transition period, the increase shall belong to Xintaishi Zhongmu and the consideration will not be adjusted.

Save for the certification of the safety evaluation report as mentioned above, all necessary licenses, approvals, certificates and permits for the construction and business operation of the project under the Xintaishi Zhongmu have been obtained.

ix. Xintaishi Zhongmu Transfer of Rights Agreement

ix. Dongying Tianze Transfer of Rights Agreement

On 30 September 2021, the Purchaser entered into the Dongying Tianze Transfer of Rights Agreement with the Vendor, Shandong Landi New Energy Development Co., Ltd.* (山東藍迪新能源開發有限公司) (“ ”), Shandong Tianrong Ruilin New Energy Co., Ltd.* (山東天融瑞麟新能源有限公司) (“ ”), Jinan Ruipu Investment Partnership Enterprise (Limited Partnership)* (濟南瑞璞投資合夥企業(有限合夥)) (“ ”) and Dongying Tianze, pursuant to which, the parties agree that, from the effective date of the Dongying Tianze Transfer of Rights Agreement:

In assessing the fairness and reasonableness of the consideration for the Acquisitions, we have obtained and reviewed the Valuation Report prepared by the Valuer. We have also reviewed and enquired with the Valuer (i) qualification and experience of the Valuer in relation to the preparation of the Valuation Report; (ii) the key assumptions; and (iii) valuation procedures conducted by the Valuer for conducting the valuation. Furthermore, we have reviewed the terms of engagement of the Valuer and noted that the scope of work is appropriate to the valuation. The Valuer has also confirmed its independence.

As set out in the Letter from the Board, the consideration for the Acquisitions was determined after arm's length negotiation between the Purchaser and the Vendor by reference to, among other things, the respective historical financial performance of the Target Companies

The Valuer identified an exhaustive list, on a best effort basis, of four listed comparable companies (the “ ”) based on the criteria that (i) the principal business is related to solar photovoltaic power generation business; (ii) the major operating segment is in the PRC; (iii) there are sufficient listing and operating histories; and (iv) the financial information is available to the public. We discussed with the Valuer regarding such selection criteria and assessed the appropriateness of the Comparable Companies. Given the similar business nature and operations of the Target Companies and the Comparable Companies, in particular (i) Shuifa Guangyao is principally engaged in construction and operation of solar power project; (ii) Xintaishi Zhongmu is principally engaged in investment, development, construction and management of solar photovoltaic power generation projects; (iii) Dongying Tianze is principally engaged in construction and operation of photovoltaic power generation projects; and (iv) the business nature of the Comparable Companies as stated in the Valuation Report, and we have independently performed a search on the Comparable Companies and noted that the revenue of which were all derived from the solar related business for their respective latest full financial years according to their annual reports, we concur with the Valuer the selection of the Comparable Companies which each comparable company is a fair and representative sample. Shareholders may refer to the Valuation Report for details in relation to the Comparable Companies.

In determining the appropriate valuation multiples for the Valuation, the Valuer has considered price-to sales, price-to-earnings, price-to-book multiples and enterprise value-to-earnings before interest and taxes (the “**EV/EBIT Multiple**”). As advised by the Valuer, after taking into account, among others, (i) the operations of the Target Companies and the Comparable Companies do not heavily depend on their assets; (ii) the price-to-sales multiples could not fully capture the cost structure of the Target Companies and the Comparable Companies; and (iii) the Target Companies and the Comparable Companies have vastly different capital structures, the EV/EBIT Multiple is considered to be the most appropriate multiple in calculating the market value of the Target Companies.

In view of that (i) Shuifa Guangyao will become a wholly-owned subsidiary of the Company; and (ii) Xintaishi Zhongmu and Dongying Tianze will become non wholly-owned subsidiaries of the Company upon Completions, the Valuer considered that a premium to reflect the power of a control should be adopted in the Valuation. In this regard, a control premium of 21.0% has been adopted to reflect the higher marketability of a controlling interest compared to a minority interest with reference to the Mergerstat Control Premium Study (1st Quarter 2021) (the “ ”) published by FactSet Mergerstat, LLC., an independent information provider for merger and acquisition transaction data. For our due diligence purpose, we have requested and obtained from the Valuer the list of transactions in the Control Premium Study and noted that (i) there are a total of 122 transactions of which 31 U.S. transactions and 91 international transactions; and (ii) the median control premium was adopted in the Valuation to minimize the effect of extreme data. Given that the Control Premium Study is an independent study which is designed to assist the valuation professional in determining the control premium, we concur with the view of the Valuer that the control premium of 21.0% as set out in the Control Premium Study is a valid reference for determining the control premium for the Target Companies and the control premium of 21.0% applied to the Valuation is fair and reasonable.

As part of our work done, on a best effort basis, we have also reviewed circulars which satisfy the following criteria, including but not limited to, (i) the transactions are related to acquisition of equity interest of a privately held company; (ii) there are valuation reports prepared by independent valuer; (iii) the control premium is adopted at arriving the valuation of equity interest of the respective companies; (iv) the transactions are regarded as connected transaction under the Listing Rules; and (v) the dates of despatch of the circulars cover the period from 1 April 2021 and up to 30 September 2021, being the date of the Sale and Purchase Agreements (representing a six-month period which we consider to be a recent and reasonable period and be demonstrative for the prevailing market practice), we noted that (i) two out of four control premium adopted at arriving the valuation of equity interest of the respective companies in respective circulars are adopted with reference to the Control Premium Study; and (ii) the control premium of 21.0% adopted fall within the range of the control premium adopted at arriving the valuation of equity interest of the respective companies in respective circulars.

Moreover, in view of the fact that the Target Companies are private companies, the Valuer applied a marketability discount (the “ ”) of 15.8% to the equity interest of the Target Companies based on their analysis and market median. The MD is determined by the Valuer with reference to the research result as published in “Stout Restricted Stock Study 2021” (the “ ”) by Stout Risius Ross, LLC, one of the national preeminent firms offering a broad range of financial advisory services to private and public companies. We have discussed with the Valuer and reviewed an extract of the Stout Study. Furthermore, according to the Stout Study, the MD is the median marketability discount of 762 private placement transactions of unregistered common stock issued by publicly traded companies from January 1980 through April 2021. Given that the Stout Study is an independent research study report which is designed to assist the valuation professional in determining MD, we concur with the view of the Valuer that the MD of 15.8% as set out in the Stout Study is a valid reference for determining the MD for the Target Companies and the MD of 15.8% applied to the Valuation is fair and reasonable.

As part of our work done, on a best effort basis, we have also reviewed circulars which satisfy the following criteria, including but not limited to, (i) the transactions are related to acquisition of equity interest of a privately held company; (ii) there are valuation reports prepared by independent valuer; (iii) the MD is adopted at arriving the valuation of equity interest of the respective companies; (iv) the transactions are regarded as connected transaction under the Listing Rules; and (v) the dates of despatch of the circulars cover the period from 1 April 2021 and up to 30 September 2021, being the date of the Sale and Purchase Agreements (representing a six-month period which we consider to be a recent and reasonable period and be demonstrative for the prevailing market practice), we noted that (i) four out of six MD adopted at arriving the valuation of equity interest of the respective companies in respective circulars are adopted with reference to the Stout Study; and (ii) the MD of 15.8% fall within the range of the MD adopted at arriving the valuation of equity interest of the respective companies in respective circulars.

Based on the consideration for (i) the Shuifa Guangyao Acquisition of RMB3.16 million; (ii) the Xintaishi Zhongmu Acquisition of RMB49.02 million; and (iii) the Dongying Tianze Acquisition of RMB51.0 million, it represents a discount of approximately 71.3%, 72.0% and 56.8% to the respective market value appraised by the Valuer.

We noted that the consideration for the Acquisitions represents a premium to the net asset value and the original acquisition cost, however, taking into account, (i) our discussion with the Management that at the relevant time the original acquisition costs was based on the then investment criteria with different level of risk involved, hence, the difference is attributable to (ii) the adoption of original cost approach versus asset-based approach which cannot capture future potential earnings of the Target Companies, details of which are set out under the paragraph headed “Valuat _ nI

Having considered, among others,

- (i) the Acquisitions are in line with the Group's strategy to grow into an enterprise with a focus on clean energy business;
- (ii) the information and analysis as set out under the section headed "2. Overview of the economy and solar energy market in PRC" above;
- (iii) the reasons and the benefits of the Acquisition as set out in "4. Reasons for and benefits of the Acquisitions" above; and
- (iv) the consideration of each of the Target Companies represents a discount to the fair value of the respective Target Companies based on the Valuation Report,

we consider that although the Acquisitions are not in the ordinary and usual course of business of the Group, the Sale and Purchase Agreements, the Transfer of Rights Agreements and the transactions contemplated thereunder are on normal commercial terms, fair and reasonable so far as the Independent Shareholders are concerned and in the interests of the Company and the Shareholders as a whole.

Accordingly, we advise the Independent Board Committee to recommend, and we ourselves recommend, the Independent Shareholders to vote in favour of the ordinary resolutions to be proposed at the SGM to approve the Acquisitions and the transactions contemplated under the Sale and Purchase Agreements and the Transfer of Rights Agreements.

Yours faithfully,
For and on behalf of

The following is extracted from the report prepared for the purpose of incorporation in this circular by Roma Appraisals Limited, an independent valuer, in connection with its valuation as at 30 April 2021.

This report is prepared solely for the use of the directors and management of the Company. In addition, Roma Appraisals Limited (hereinafter referred to as “ ”) acknowledges that this report may be made available to the Company for public documentation purpose only.

Roma Appraisals assumes no responsibility whatsoever to any person other than the Company in respect of, or arising out of, the contents of this report. If others choose to rely in any way on the contents of this report they do so entirely at their own risk.

Our valuation is conducted on a market value basis. According to the International Valuation Standards established by the International Valuation Standards Council in 2020, is defined as “the estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm’s length transaction, after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion”.

Our investigation included discussions with members of the Management in relation to the development, operations and other relevant information of the Target Companies.

We have had discussions with the Management in relation to the development, operations and other relevant information of the Target Companies. We have also consulted other sources of financial and business information. In arriving at our opinion of value, we have relied on the completeness, accuracy and representation of operational, financial and other pertinent data and information of the Target Companies as provided by the Management to a considerable extent.

The valuation of the Target Companies requires consideration of all pertinent factors, which may or may not affect the operation of the business and its ability to generate future investment returns. The factors considered in our valuation include, but are not necessarily limited to, the following:

- The business nature and prospect of the Target Companies;
- The financial information of the Target Companies;
- Relevant licenses and agreements;
- The business risks of the Target Companies such as the ability in maintaining competent technical and professional personnel; and
- Investment returns of entities engaged in similar lines of business.

There are three generally accepted approaches to obtain the market value of the Target Companies, namely the Market-Based Approach, Income-Based Approach and Asset-Based

In the process of valuing the Target Companies, we have taken into account of the operation and financial information of the Target Companies and conducted discussions

The EV/EBIT multiples of the aforementioned comparable companies were listed as follows:

Beijing Energy International Holding Co., Ltd.	686.HK	15.59
Xinyi Energy Holdings Ltd.	3868.HK	21.70
Jinko Power Technology Co., Ltd.	601778.CH	19.27
CECEP Solar Energy Co., Ltd.	000591.CH	17.77

The EV/EBIT multiple adopted was the median of the EV/EBIT multiples of the above comparable companies as at the Date of Valuation as extracted from Bloomberg. We obtained the estimated market values of the Target Companies as at 30 April 2021 by applying the median EV/EBIT multiple to the estimated trailing 12 months earnings before interest and taxes (“ ”) of RMB732,554, RMB14,897,760 and RMB15,838,474 for Shuifa Guangyao, Xintaishi Zhongmu and Dongying Tianze respectively. The market value of the Target Companies was then arrived by adjusting with the marketability discount, control premium, net cash/debt and net non-operating assets.

The estimated trailing 12 months EBIT for Shuifa Guangyao, Xintaishi Zhongmu and Dongying Tianza was based on the management accounts of Shuifa Guangyao, Xintaishi Zhongmu and Dongying Tianza for the four months ended 30 April 2021 and the unaudited financial statements of Shuifa Guangyao, Xintaishi Zhongmu and Dongying Tianza for the year ended 31 December 2020. The calculation basis was derived by summing the EBIT for the period from 1 January 2021 to 30 April 2021 and the estimated eight months EBIT for the period from 1 May 2020 to 31 December 2020 calculated by pro-rata basis on the annual EBIT for the fiscal year 2020. We understood that the business operation of the Target Companies did not have any significant seasonality after the discussion with the Management, the estimation basis was therefore considered to be reasonable in reflecting the trailing 12 months EBIT for the Target Companies.

The marketability discount was the percentage difference between the private placement price per share and the market trading price per share. Compared to similar interest in public companies, ownership interest is not readily marketable for closely held companies. Therefore, the value of a share of stock in a privately held company is usually less than an otherwise comparable share in a publicly held company. We have made reference to the result of the restricted stock study (the “ ”) published in “Stout Restricted Stock Study 2021” by Stout Risius Ross, LLC, one of the national preeminent firms offering a broad range of financial advisory services to private and public companies.

According to the Research, a total of 762 private placement transactions of unregistered common stock issued by publicly traded companies from January 1980 through April 2021 were examined. With reference to the Research, we have adopted the median marketability discount for the 762 transactions of 15.80% in arriving at the market values of the Target Companies as at the Date of Valuation. The median marketability discount was adopted to minimize effect of extreme data. This median figure was concluded in the Research and we have not adjusted nor selected the data.

In addition, as we are considering the market value of the Target Companies from the perspective of controlling interest, the median control premium for international transaction of 21.00% has been adopted to reflect the higher marketability of a controlling interest compared to a minority interest with reference to the Mergerstat Control Premium Study (1st Quarter 2021) (the “ ”) published by FactSet Mergerstat, LLC., an independent information provider for merger and acquisition transaction data.

The median control premium was adopted to minimize effect of extreme data. The Study examined 122 transactions (comprising 31 U.S. transactions and 91 international transactions). The control premium was the percentage difference between the purchase price per share and the market trading price per share unaffected by the acquisition announcement.

If more than one proxy is so appointed, the appointment shall specify the number and class of Shares in respect of which each such proxy is so appointed. A proxy need not be a member of the Company, but must attend the meeting in person to represent you.
- (c) The instrument appointing a proxy shall be in writing under the hand of the appointor or of his attorney duly authorised in writing or, if the appointor is a corporation, either under its seal or under the hand of an officer, attorney or other person authorised to sign the same.
- (d) To be valid, a form of proxy, together with the power of attorney or other authority (if any) under which it is signed, or a notarially certified copy thereof, must be deposited at the branch share registrar of the Company in Hong Kong, Tricor Investor Services Limited, at Level 54, Hopewell Centre, 183 Queen's Road East, Hong Kong not less than 48 hours before the time appointed for the holding of the meeting (i.e. not later than 11:00 a.m. on 4 December 2021) or any adjourned meeting. The proxy form is published on the websites of Hong Kong Exchanges and Clearing Limited at www.hkexnews.hk and the Company at www.singyessolar.com.
- (e) Completion and delivery of the form of proxy will not preclude a member from attending and voting in person at the meeting if the member so desires and in such event, the instrument appointing a proxy shall be deemed to be revoked.
- (f) Where there are joint holders of any share, any one of such persons may vote at any meeting, either in person or by proxy, in respect of such Share as if he was solely entitled thereto; but if more than one of such joint holders be present at any meeting the vote of the senior who tenders a vote, whether in person or by proxy, shall be accepted to the exclusion of the votes of the other joint holders, and for this purpose seniority shall be determined by the order in which the names stand in the register of members in respect of the joint holding.
